第一节 现金和流动资金管理

Chapter 14 Short-term finance and investments

Chapter 15 Working capital management

Chapter 16 Working capital management – accounts receivable and payable

Chapter 17 Working capital management – inventory control

Chapter 18 Working capital management – cash control

1 短期融资和投资

- 描述短期资金的来源
- 描述短期现金盈余的投资选择
- 确定适当的国际贸易融资方法
- 用数字说明短期资金和投资的财务影响方法并回答与这些领域相关的问题。

1.20x4 年 4 月 1 日，一家实体以 12% 的利率存入 1000 万美元。存款到期日为 20x4 年 6 月 30 日(91 天后)。计算所赚取的利息和该实体将在存款到期时收到的现金金额。一年有 360 天的利息。

答案

利息: $\$10 \text{ million} \times 12\% \times 91/360 = \$303,333$.

存款到期日，本息合计 $\$10 \text{ million} + \$303,333 = \$10,303,333$

2.An entity sells goods to customers overseas.

Which of the following would be used to reduce the risk of having irrecoverable debts?

- a. Invoice discounting.
- b. Commercial paper.
- c. Documentary credit.
- d. Certificate of deposit.

2.某公司向海外客户销售商品。

以下哪项可用于降低债务无法收回的风险?

- a. 发票贴现。
- b. 商业票据。
- c. 跟单信用证。
- d. 存款证书

答案: C

3. Which of the following would not normally be used to deal with the credit risk associated with exporting:

- A Documentary credits
- B Forfaiting
- C Bills of exchange
- D Treasury bills

下列哪一项通常不会用于处理与出口有关的信用风险?

- A 纪录片
- B 福费廷
- C 汇票
- D 国库券

答案: D

4. Which of the following factors would not normally be considered when choosing between different sources of investment:

- A risk B liquidity C Currency D Maturity

在选择不同的投资来源时, 下列哪些因素通常不会被考虑:

- A 风险 B 流动性 C 货币 D 期限

答案 C

2. 经营周期和现金周期

- 计算和解释营运资金比率
- 讨论营运资金总投资水平的总体管理政策
- 评估过度交易的影响和风险
- 评估使用不同营运资金政策的影响并回答与这些领域相关的问题。

5. Over-trading is best described by which of the following statements?

- A It occurs when an entity tries to grow too rapidly, backed by too small a capital base
- B It occurs when an entity tries to operate its equipment too far above its designed capacity
- C It occurs when sales grow rapidly, fuelled by extending longer credit periods
- D It occurs when an entity uses short-term finance in preference to long-term finance

以下哪种说法能够最好的描述过度经营

- A 当一个实体试图在资本基础过小的情况下快速增长时, 就会出现这种情况
- B 当一个实体试图操作其设备远远超过其设计能力时, 就会发生这种情况
- C 当销售迅速增长时, 就会出现这种情况, 这种增长受到延长信贷期限的推动
- D 当企业优先使用短期融资而不是长期融资时, 就会发生这种情况

答案: A- Overtrading occurs when an entity tries to grow too rapidly, backed by too small a capital base.

3. 营运资金管理-应收及应付账款

- 讨论贸易应收账款和应付账款余额管理政策
- 评估不同贸易应收和应付政策的影响并回答与这些领域相关的问题。

6.

Bob has sales of \$40 million. Receivables at the year-end were \$8 million, and the cost of financing receivables is covered by an overdraft at the interest rate of 8% p.a.

Required

- (a) Calculate the receivables days for Bob.
- (b) Calculate the annual cost of financing receivables.

Solution

(a) Receivables days = 73 days ($\$8\text{m} \div \$40\text{m} \times 365$)

(b) Annual cost of financing receivables = \$640,000 ($\$8\text{m} \times 8\%$)

7.

Bob has sales of \$40 million, receivables at the year-end of \$8 million and the cost of financing receivables is covered by an overdraft at the interest rate of 8% pa. It is now considering offering a cash discount of 2% for payment of debts within 10 days.

Required:

Calculate whether the annualised cost of offering the discount and state whether you would advise the discount to be offered.

Bob 的销售额为 4000 万美元，年终应收账款为 800 万美元，应收账款的融资成本由透支支付，年利率为 8%。目前正在考虑对 10 天内偿还债务的人提供 2% 的现金折扣。要求：计算提供折扣的年化成本，并说明您是否建议提供折扣。

Solution

Receivables days are currently 73 ($\$8\text{m}/\$40\text{m} \times 365$)

Saving is 63 days (dropping from 73 days to 10) and there are $365 \div 63 = 5.794$ periods in a year.

Discount = 0.16m ($2\% \times 8\text{m}$)

Amount left to pay = 7.84m ($8\text{m} - 0.16\text{m}$)

$0.16/7.84 = 0.0204$ (NB. this can also be achieved via $(2\%/98\%)$)

Annualised cost of discount % is

$(1 + 0.0204)^{5.794} - 1 = 0.1241 = 12.41\%$

The overdraft rate is 8%.

It would be cheaper to borrow the money from the bank rather than offer the discount.

8. Edden is a medium-sized entity producing a range of engineering products, which it sells to wholesale distributors. Recently, its sales have begun to rise rapidly due to economic recovery. However, it is concerned about its liquidity position and is looking at ways of improving cash flow. Its sales are \$16 million p.a. and average receivables are \$3.3 million (representing about 75 days of sales). One way of speeding up collection from receivables is to use a factor. It has considered an agreement from an interested factoring entity. The factor will pay 80% of the book value of invoices immediately, with finance costs charged on the advance at 10% p.a. The factor will charge 1% of sales as their fee for managing the sales ledger and there will be administrative savings of \$100,000. It will be a non-recourse agreement - which means that the factor will bear the responsibility for any irrecoverable debts. The entity is currently paying 8% interest on its overdraft.

Required Calculate the relative costs of using the factor and state whether it would be beneficial to the entity to use this facility.

Eden 是一家中型实体，生产一系列工程产品，并将其销售给批发分销商。最近，由于经济复苏，其销售额开始迅速上升。然而，该公司对其流动性状况感到担忧，正在寻找改善现金流的方法。其年销售额为 1600 万美元，平均应收账款为 330 万美元(约相当于 75 天的销售额)。加快应收账款催收的一种方法是使用保理公司。它已考虑了一家感兴趣的保理公司的协议。保理商将立即支付发票账面价值的 80%，并以每年 10% 的利率提前收取财务费用。

该保理协议将收取销售额的 1% 作为管理销售分类账的费用，并将节省 10 万美元的行政费用。这将是无追索权协议-这意味着该保理公司将承担任何不可收回的债务的责任。Eden 目前为其透支支付 8% 的利息。

计算使用该保理的相对成本，并说明使用该设施是否对该实体有利。

答案：

	保理协议成本 \$	公司节约成本 \$
销售账户管理费 1%*\$16m	160,000	
公司管理成本		100, 000
保理融资成本 10%*80%*\$3.3m	264,000	
公司透支成本 8%*80%*\$3.3m		211,200
总计	424,000	311,200
净保理协议成本	112,800	

公司需要平衡保理成本与改善现金流以获得更大的流动性所提供的安全性。同样值得记住的是，作为无追索权的安排，该实体也将免于受到坏账影响。

* 80% 的平均应收账款余额在任何时候都是在账上的。

9.

Mott has been offered a discount by a supplier of 4% on an invoice totalling \$10,000, if payment is made within 30 days, rather than the 90 days normally taken to pay.

If Mott's overdraft rate is 12% pa, should Mott pay early?

如果莫特在 30 天内付款，而不是通常的 90 天内付款，供应商已经向莫特提供了总额为 10,000 美元的发票的 4%折扣。如果莫特的透支率是每年 12%，莫特应该提前付款吗

Solution

Discount saves 4% of \$10,000 = \$400

Financed by overdraft for extra two months in order to pay early:

\$10,000 - \$400 = \$9,600

Discount as a percentage of amount to be paid = $\frac{400}{9,600} = 4.17\%$

Saving pay paying early is 60 days in a 365 day year.

Annualised cost of not taking the discount (and therefore borrowing from the supplier) is: $(1+0.0417)^{365/60} - 1 = 0.2821 = 28.21\%$

The overdraft rate is 10%.

The discount saving is higher than the cost of any overdraft. It would be cheaper to pay early by borrowing from the bank.

4. 营运资本管理-存货控制

- 讨论库存管理的目标和成本
- 评估库存替代政策的影响并回答与这些领域相关的问题。

10.管理库存的问题

An entity requires 2,000 units of material per month. The cost per order is \$15 regardless of the size of the order. The annual holding costs are \$1.44 per unit.

Required:

Calculate the economic order quantity?

一个实体每月需要 2000 单位的材料。无论订单大小，每笔订单的成本都是 15 美元。每年持有成本为每单位 1.44 美元。要求:计算经济订单数量?

Solution

$$EOQ = \sqrt{\frac{2C_oD}{C_H}}$$

$$C_o = 15$$

$$D = 2,000 \times 12 = 24,000$$

$$C_H = 1.44$$

$$EOQ = \sqrt{(2 \times 15 \times 24,000)/1.44} = 707 \text{ units}$$

11. 经济订单数量(EOQ)与数量折扣

Timapple is a retailer of skips. The entity has an annual demand of 60,000 skips. The skips cost \$6 each. Supplies can be obtained immediately, with ordering and transport costs amounting to \$200 per order. The annual cost of holding one skip in stock is estimated to be \$2.40 per skip.

A 2% discount is available on orders of at least 5,000 skips.

Required:

Calculate the EOQ ignoring the discount and calculate if it would change once the discount is taken into account.

Timapple 是一家 skips 售商。该实体的年需求量为 6 万只。每个 skip 的价格是 6 美元。供应品可立即获得，订购和运输费用为每单 200 美元。在库存中持有一个料斗的年成本估计为每个料斗 2.40 美元。订购 5000 次以上可享受 2% 的折扣。要求:计算不计折扣的 EOQ，并计算一旦考虑折扣后 EOQ 是否会改变。

Step 1 Calculate EOQ, ignoring discounts.

$$EOQ = \sqrt{\frac{2C_oD}{C_H}}$$

$$C_o = \$200$$

$$D = 60,000 \text{ units}$$

$$C_H = \$2.40$$

$$EOQ = \sqrt{(2 \times 200 \times 60,000)/2.40} = 3,162 \text{ units}$$

Step 2: As EOQ below the level for discounts, calculate total annual inventory costs.

Total annual costs for the entity will comprise holding costs plus reordering costs.

$$\begin{aligned} &= (\text{Average inventory} \times C_H) + (\text{Number of re-orders p.a.} \times C_O) \\ &= (3,162/2) \times 2.40 + 60,000/3,162 \times 200 \\ &= \$3,794.40 + \$3,795.07 \\ &= \$7,590.10 \end{aligned}$$

Step 3 Recalculate total annual inventory costs using the order size required to obtain the discount.

At order quantity 5,000, total costs are as follows.

$$\begin{aligned} &= (\text{Average inventory} \times C_H) + (\text{Number of re-orders p.a.} \times C_O) \\ &= (5,000/2) \times 2.40 + 60,000/5,000 \times 200 \\ &= \$6,000 + \$2,400 \\ &= \$8,400 \end{aligned}$$

Step 4 Net saving

	\$
Extra costs of ordering in batches of 5,000 (8,400 – 7,590)	(810)
Saving on discount 2% × \$6 × 60,000	7,200
	6,390

Hence batches of 5,000 are worth purchasing and the order level should be increased.

12.根据已知的需求和交货期计算再订货水平(ROL)

Mortimer has an annual demand of 60,000 units. The economic order quantity has been calculated as 3,162 units. It takes two weeks for an order to be delivered.

Required:

- (a) Calculate how frequently the entity will place an order?
- (b) Calculate how much inventory it will have on hand when the order is placed?

莫蒂默的年需求量为 6 万件。经济订货量已计算为 3162 台。订单需

要两周的时间才能送达。

要求:(a)计算实体下订单的频率?(b)计算下订单时手头有多少库存?

Solution:

(a) 19 days

Annual demand is 30,000. The original EOQ is 3,162. The entity will therefore place an order once every:

$$(3,162 \div 60,000) \times 365 \text{ days} = 19 \text{ days}$$

(b) 2,307 units

The entity must be sure that there is sufficient inventory on hand when it places an order to last the two weeks' lead time.

It must place an order when there is two weeks' worth of demand in inventory.

$$\text{ROL is } (2 \div 52) \times 60,000 = 2,307 \text{ units}$$

5.营运资本管理-现金控制

- 准备和分析短期现金流量预测;
- 确定改善现金预测情况的措施;
- 比较和对比现金管理模型的使用和局限性, 并确定每种模型何时最合适, 并回答与这些领域相关的问题。

13.企业预测的销售如下:

January February March April

销售收入 \$12,000 \$16,000 \$8,000 \$10,000

所有的销售都是信用销售并且应收账款按以下安排收回现金

- 在实现销售月份 10%
- 实现销售后一个月 40%
- 实现销售后二个月 45%

企业预计会产生 5%的无法收回账款。

请计算四月份能够收回的总量现金是多少。

Solution

Cash from:		\$
April sales:	10% × \$10,000	1,000
March sales:	40% × \$8,000	3,200
February sales:	45% × \$16,000	7,200
		11,400

第二节 对外报告

Chapter 7 The Conceptual Framework

Chapter 8 IAS1 Introduction to single entity accounts

Chapter 13 IAS 7 Statement of cash flows

2-1: 财务报告的监管环境

• 您应能够:解释国际会计准则理事会(IASB)发布的《财务报告概念框架》的主要原则。 并回答与这些领域有关的问题。

1.In the Conceptual Framework for Financial Reporting, which of the following is not a qualitative characteristic of useful financial information?

A Relevance

B Faithful representation

C Materiality

D Understandability

在财务报告的概念框架，其中以下是没有用的定性特征财务信息？

A 相关性

B 真实表述

C 重要性

D 可理解性

答案： C

2.According to The Conceptual Framework for Financial Reporting, which of the following items is an underlying assumption when preparing a set of financial statements?

A Prudence

B Going Concern

C Accruals

D Comparability

据金融概念框架 报告，下列哪一项是基础在编制一套财务报表时的假设？

A 谨慎性

B 持续经营

C 权责发生制

D 可比性

答案 B

3.Which of the following items best defines relevant financial information to the users of financial statements?

A Information that is free from material error and bias, and is a faithful representation

B Information that has been prudently prepared

C Information that is comparable from one period to the next

D Information that influences the decisions of users

以下哪一项最好地定义了相关财务向财务报表使用者提供的信息？

A 没有重大性错误和偏差的信息，并且真实表述

B 经过谨慎准备的信息

C 从一个时期到下一个时期的可比信息

D 影响用户决策的信息

答案： D

4. Which of the following criteria need to be satisfied in order for an item to be recognised in the financial statements?

- (i) It meets the definition of an element of the financial statements
 - (ii) It is probable that future economic benefits will flow to or from the entity
 - (iii) It provides relevant information regarding the item
 - (iv) The item has a cost or value that can be reliably measured
- 要在财务报表中确认一个项目，需要满足下列哪项标准？
- (i) 它符合财务报表要素的定义
 - (ii) 未来的经济利益很可能流向或来自该实体
 - (iii) 它提供了项目的相关信息
 - (iv) 项目的成本或价值能够可靠地计量

A (i) (ii)

B (i) (iii)

C (i) (iv)

D (i) (iii) (iv)

答案 B

5. Which of the following measurement bases could be used by an entity to recognise an asset according to The Conceptual Framework for Financial Reporting?

A Historical cost

B Current cost

C Value in use

D Any of the above

以下哪一种测量基础可以被使用根据《概念》确认资产的实体财务报告框架？

A 历史成本

B 当前的成本

C 使用价值

D 以上任何一项

答案 D

6. The Board's Framework identifies qualitative characteristics:

- (i) Relevance
- (ii) Comparability
- (iii) Verifiability
- (iv) Understandability
- (v) Faithful representation.

Which of the above are not listed as enhancing characteristics?

委员会的框架确定了质量特征：

- (i) 相关性
- (ii) 可比性
- (iii) 可验证性
- (iv) 可理解性
- (v) 真实陈述。

以上哪些没有被列为增强特性？

A (i) (iv) (v)

B (ii) (iii) (iv)

C (ii) (iii)

D (i) (v)

答案 D

7. The Conceptual Framework for Financial Reporting provides definitions of the elements of financial statements. One of the elements defined by the Framework is 'expenses'. Which of the

following represents the definition of 'expenses' as per the Framework?

A A present economic resource controlled by the entity as a result of past events

B The residual interest in the assets of the entity after deducting all its liabilities

C Decreases in assets or increases in liabilities that result in decreases in equity, other than

those relating to distributions to equity participants

D A right that has the potential to produce economic benefits

《财务报告概念框架》提供了财务报表要素的定义。该框架定义的要素之一是“费用”。以下哪一项代表了框架中“费用”的定义？

A 由于过去的事件而被主体控制的当前经济资源

B 企业资产在扣除所有负债后的剩余权益

C 资产减少或负债增加导致权益减少，与股权参与人分配有关的除外

D 有潜在的可能产生经济利益的权利

答案： C

8. The International Accounting Standards Board's (The Board's) Conceptual Framework for Financial Reporting sets out two fundamental qualitative characteristics of financial information, relevance and faithful representation.

Which of the following characteristics would you expect information to possess if it is to have faithful representation?

Select all that apply.

A Neutrality B Relevance C Prudence D Accruals E Completeness

国际会计准则理事会(IASB)的财务报告概念框架规定了财务信息的两个基本质量特征：相关性和忠实再现。如果信息要有真实表述，你希望它具备以下哪一种特征？选择所有适用的。

A 中立性 B 相关性 C 审慎性 D 权责发生制 E 完整性

答案： A E

9. The Conceptual Framework for Financial Reporting lists the qualitative characteristics of financial statements:

(i) Comparability,

(ii) Verifiability

(iii) Timeliness

(iv) Understandability

(v) Relevance

(vi) Faithful representation.

财务报告概念框架》列出了财务报表的质量特征：

- (i) 可比性,
- (ii) 可验证性
- (iii) 及时性
- (iv) 可理解性
- (v) 相关性
- (iv) 忠实陈述

Which TWO of the above are NOT included in the enhancing qualitative characteristics listed by the Framework?

- A (i) and (vii)
- B (ii) and (v)
- C (iv) and (v)
- D (v) and (vi)

答案: D

10. According to the International Accounting Standards Board's Conceptual Framework for Financial Reporting, which of the following are types of capital maintenance? Select all that apply.

A Human B Physical Spiritual D Neutral E Intellectual F Financial

根据国际会计准则理事会的财务报告概念框架，以下哪一种是资本维持类型？选择所有适用的。

A .人类 B .身体精神 D .中性 E .智力 F .财务

答案: B

11. According to the Conceptual Framework for Financial Reporting, which of the following statements are true?

- A All income and expenses must always be included within profit or loss
- B Aggregation of information is forbidden
- C Classification sorts transactions based on shared characteristics
- D Disclosures notes are not considered to be part of the financial statements

根据《财务报告概念框架》，下列哪项陈述是正确的？

- A 所有的收入和费用都必须包括在损益中
- B 禁止聚合信息
- C 分类基于共享特征对事务进行排序
- D 披露附注不被认为是财务报表的一部分

答案: C

第 2-2 节：财务报表基础

按照《国际会计准则第 1 号财务报表列报》的要求，

- 制作适合从试算平衡表发布的财务报表；
- 制作财务状况表；
- 制作损益表和其他综合损益表；
- 制作权益变动表；
- 识别影响财务报表的概念，并回答与这些领域相关的问题。

1. Which of the following best describes the purpose of financial statements according to IAS 1 Presentation of Financial Statements?

A To provide information that enables users to assess the stewardship of management

B To provide information about the financial position, financial performance and cash flows of an enterprise

C To provide a summary of all financial transactions entered into in the accounting period

D To provide a statement of profit or loss and other comprehensive income and a statement of financial position

根据《国际会计准则第 1 号——财务报表列报》，下列哪一项最好地描述了财务报表的目的？

A 提供信息，使使用者能够评估管理的管理工作

B 提供有关企业财务状况、财务业绩和现金流量的信息

C 提供在会计期间发生的所有财务交易的摘要

D 提供损益表和其他综合收益表以及财务状况表

答案 B

2. Which of the following are concepts that should be applied when preparing financial statements according to IAS 1 Presentation of Financial Statements?

(i) Going concern

(ii) Accruals

(iii) Consistency

(iv) Off-setting

A (i) and (ii)

B (i) and (iii)

C (i), (ii) and (iv)

D All of them

在根据《国际会计准则第 1 号财务报表列报》编制财务报表时，应用下列哪些概念？

(i) 持续经营

(ii) 权责发生制

(iii) 一致性

(iv) 抵消

A (i) (ii)

B (i) (iii)

C (i) (ii) (iv)

D 所有答案

答案： D

3. Which of the following items must be shown on the face of the statement of profit or loss and other comprehensive income according to IAS 1 Presentation of Financial Statements?

(i) Revenue

(ii) Cost of sales

(iii) Gross profit

(iv) Finance costs

(V) Income tax expense

根据《国际会计准则第 1 号——财务报表列报》，下列哪些项目必须在损益表和其他综合损益表表面显示？

- (i) 收入
- (ii) 销售成本
- (iii) 毛利润
- (iv) 财务成本
- (v) 所得税费用

A 所有的答案

B (i) (ii) (iii) (iv)

C (i) (iv) (v)

D (i) (ii) (iii)

答案: C

4. Which of the following items would be shown in the statement of changes in equity?

- (i) Profit for period
- (ii) Dividends paid
- (iii) Dividends proposed after the reporting period
- (iv) Issue of shares
- (v) Revaluation surplus

A (i) (ii) (iv) (v)

B (i) (ii) (iii) (iv)

C (i) (iii) (iv) (v)

D All of them

下列哪些项目将在权益变动表中显示?

- (i) 期间利润
- (ii) 分红
- (iii) 报告期后拟派息
- (iv) 发行股份
- (v) 重估盈余

A (i) (ii) (iv) (v)

B (i) (ii) (iii) (iv)

C (i) (iii) (iv) (v)

D 所有答案

答案: A

5. Which of the following items would be shown as other comprehensive income on the statement of profit or loss and other comprehensive income?

- (i) Profit for period
- (ii) Dividends paid
- (iii) Dividends proposed
- (iv) Issue of shares
- (v) Revaluation surplus

A (i) (ii) (iv) (v)

B (i) (ii) (iv)

C (v)

D All of them

下列哪一项会在损益表和其他综合收益表中显示为其他综合收益?

- (i) 期间利润
- (ii) 分红
- (iii) 股息的提议
- (iv) 发行股份
- (v) 重估价盈余

A (i) (ii) (iv) (v)

B (i) (ii) (iv)

C (v)

D 全部答案

答案： C

6. According to IAS 1 Presentation of Financial Statements, which of the following must be recognised in the statement of profit or loss?

A Depreciation

B Equity dividends paid

C Revaluation gains

D Transfer from a revaluation surplus to retained earnings when a revalued asset is sold

根据《国际会计准则第 1 号财务报表列报》，下列哪项必须在损益表中确认？

A 贬值

B 支付的股票股息

C 重估收益

D 当重估的资产被出售时，从重估盈余转移到留存收益

答案： A

7. According to IAS 1 Presentation of Financial Statements which of the following will appear separately in an entity's statement of changes in equity?

A Other income and dividends paid

B Other income, surplus arising on a revaluation and proceeds from a share issue

C Dividends paid, dividends received and proceeds from a share issue

D Dividends paid and proceeds from a share issue

根据《国际会计准则第 1 号财务报表列报》，下列哪项将单独出现在企业的权益变动表中？

A 其他收入及已支付的股息

B 其他收入、重估所得盈余及发行股份所得

C 支付的股息，收到的股息和股票发行的收益

D 从股票发行中获得的股息和收益

答案 D

8. Which of the following assets would be classified as current according to the IAS 1 Presentation of Financial Statements definition?

- Asset A which is expected to be sold within the next 12 months
- Asset B which is not expected to be sold within the next 12 months but expected to be realised with the entity's normal operating cycle
- Asset C which is held primarily for the purpose of being traded but for which there is currently no anticipated sale date

A Asset A only

B Asset A and Asset B

C Asset A and Asset C

D All of them

根据《国际会计准则第 1 号——财务报表列报》的定义，下列哪项资产将被归类为流动资产？

- 预计在未来 12 个月内出售的资产 A
- 预计不会在未来 12 个月内出售，但预计将在实体的正常经营周期内实现的资产 B
- 持有的主要目的是交易，但目前没有预期出售日期的资产 C

A 只有 A 资产

B 资产 A 和资产 B

C 资产 A 和资产 C

D 所有的资产

答案： D

9. A freehold property originally costing \$100, 000 has accumulated depreciation to date of \$20,000. The asset is to be revalued to \$130,000.

Which set of double entries is required to record the revaluation?

A. Dr Accumulated depreciation \$20,000; Cr Revaluation surplus \$20,000

B. Dr Revaluation surplus \$50,000; Cr Accumulated depreciation \$20,000, Cr

Property

at cost \$30,000

C. Dr Property at cost \$50,000; Cr Revaluation surplus \$50,000

D. Dr Accumulated depreciation \$20,000, Dr Property at cost \$30,000; Cr Revaluation surplus \$50,000

9. A freehold property originally costing \$100, 000 has accumulated depreciation to date of \$20,000. The asset is to be revalued to \$130,000.

Which set of double entries is required to record the revaluation?

A. Dr Accumulated depreciation \$20,000; Cr Revaluation surplus \$20,000

B. Dr Revaluation surplus \$50,000; Cr Accumulated depreciation \$20,000, Cr

Property at cost \$30,000

C. Dr Property at cost \$50,000; Cr Revaluation surplus \$50,000

D. Dr Accumulated depreciation \$20,000, Dr Property at cost \$30,000; Cr Revaluation surplus \$50,000

The correct answer is:

Dr . Accumulated depreciation \$20 .000.

Dr Property at cost \$30 .000:

Cr Revaluation surplus \$50,000

DEBIT Accumulated depreciation \$20,000

DEBIT Property at cost \$30 . 000

CREDIT Revaluation surplus \$50 , 000

All depreciation to date must be eliminated .

The original cost is increased to the revalued amount.

例题-间接法

以下是截至20Xx1年9月30日止年度的实体信息:

Statement of profit or loss

	\$000
Revenue	444
Cost of sales	(269)
Gross profit	175
Distribution costs	(35)
Administrative expenses	(8)
Profit from operations	132
Finance costs	(18)
Profit before tax	114
Income tax expense	(42)
Profit for the year	72

The total expenses i.e. cost of sales \$269 + distribution costs \$35 + administrative expenses \$8, can be analysed as follows:

The following information is also available:

	\$000
Wages	72
Auditors' remuneration	12
Depreciation	84
Cost of materials used	222
Profit on disposal of non-current assets	(60)
Rental income	(18)
	312

例题

	30/09/X1	30/09/X0
	\$000	\$000
Inventories	42	24
Receivables	48	42
Payables	(30)	(18)

Required:

Produce the section of the statement of cash flows for cash generated from operations using the indirect method for the year ended 30 September 20X1 in compliance with IAS 7 Statement of Cash Flows.

Solution

Splatter Statement of cash flows for the year ended 30 September 20X1

	\$000
Cash flows from operating activities	
Profit before tax	114
Depreciation	84
Profit on disposal of non-current assets	(60)
Finance costs	18
Operating profit before working capital changes	156
Increase in inventories (42 – 24)	(18)
Increase in trade receivables (48 – 42)	(6)
Increase in trade payables (30 – 18)	12
Cash generated from operations	144

解释:

Both inventory and receivable balances are increasing, hence a reduction in cash, i.e. the more money tied up in inventory or the more money owed by receivables the less cash we have available in the bank. Therefore, this is shown as a decrease in the statement.

Payables also increase but this means we have an increase in cash, i.e. the more money we owe suppliers, the longer we are keeping the cash in the bank.

存货和应收账款余额都在增加, 因此现金减少, 即存货中占用的钱越多, 应收账款欠款越多, 我们在银行可用的现金就越少。因此, 这在报表中显示为减少。应付账款也增加了, 但这意味着我们的现金增加了, 也就是说, 我们欠供应商的钱越多, 我们在银行存放现金的时间就越长。

		Profit for the year	139
Balance c/d	<u>116</u>		<u>165</u>
	<u>165</u>		<u>165</u>

14.

Extracts from KTR's statements of financial position for the years ended 31 December 20X5 and 31 December 20X6 are shown below. Property, plant and equipment:

20X6: \$902,000

20X5: \$889,000

During the year ended 31 December 20X6 KTR sold equipment that had originally cost \$260,000 and had a carrying amount of \$100,000 at the date of sale. The sales proceeds were \$120,000.

The depreciation expense for the year is \$168,000.

In KTR's statement of cash flows for the year ended 31 December 20X6, what amount would be presented for purchases of property, plant and equipment?

- a. \$255,000
- b. \$273,000
- c. \$281,000
- d. \$301,000

KTR 截至 20X5 年 12 月 31 日和 20X6 年 12 月 31 日的财务状况表摘录如下。物业、厂房和设备：

20X6 年： \$902,000

20X5 年： \$889,000

截至 20X6 年 12 月 31 日，KTR 出售的设备原价为 \$260,000，在出售之日的账面价值为 \$100,000。销售收入为 \$120,000。

该年度折旧费为 \$168,000。

在截至 20X6 年 12 月 31 日的 KTR 年度现金流量表中，购买物业、厂房和设备的金额是多少？

- a. \$255,000
- b. \$273,000
- c. \$281,000
- d. \$301,000

答案：C
